## MOTION 1

Assuming Mars has been terraformed  
and is ready to house human  
civilisation, THW require that all the  
settlers on mars be atheists

# IITK APD

## CONTEXT SLIDE 3

“Non-overlapping magisteria” is the belief that science and religion describe fundamentally distinct aspects of human experience, and thus represent two different and equally valid modes of inquiry. According to this belief, scientific inquiry cannot, and should not, encroach on the territory of religious knowledge and experience.

## MOTION 3

**THBT the scientific community should reject the view that science and religion are non-overlapping magisteria**
