Characterisation

What is Characterisation- **Characterisation in a debate** refers to how you **describe, define, or portray** a person, group, institution, concept, or situation in a way that supports your argument. It's about building a **clear and believable picture** for the judge so they understand **who the stakeholders are, what motivates them, how they behave, and why that matters** in the debate.

Private schools are attended by students who have rich parents that can fund their education. Private schools more funding than public schools- better teachers, facilities, opportunities etc

Rich parents (who put money in education)- Look for result for their investment- guaranteed success of their ward -

They have no incentive to engage with public education system or it's improvement - because no stakes

Results- Private schools incentivised to have better educational outcomes compared to Public schools
