

**Give 3 mech
and 3 impacts**

**Tip- Be direct and
straightforward**

How to rebutt - ICE

Identify the core argument you want to rebut

Criticise it

Explain why your side is better and give a comparative analysis

This House Would ban fast food advertising to children.

This House Believes that developing countries should prioritize economic growth over environmental protection.

This House Believes that social media does more harm than good for democracy.

This House Believes that developing nations should ban foreign fast-food chains.

This House Believes that states should grant amnesty to whistleblowers exposing government secrets.

This House Would prioritize climate refugees over economic migrants.

Rebuttals

Identify (what is the gov/opp claim?).

Counter-mechanise (why is it not true/less true?).

Explain (why does your version matter more?).

Bad vs. Good Rebuttal

Bad Rebuttal:

“Bans won’t work because people will just find another way.”

Good Rebuttal:

“Bans won’t work because people will turn to black markets.

Black markets are harder to regulate → products become more dangerous → harms both consumers and government legitimacy.”

This House Would ban plastic bags.

- Gov Arg 1: “Plastic takes hundreds of years to decompose, harming the environment.”
- Gov Arg 2: “Wildlife often eats or gets trapped in plastic, causing death.”
- Gov Arg 3: “Alternatives like cloth/jute bags are easily available.”

This House Believes that nudges are better than bans.

- Gov Arg 1: “Nudges respect individual freedom while still changing behavior.”
- Gov Arg 2: “They avoid the rise of black markets that bans create.”
- Gov Arg 3: “Nudges are cheaper to implement than full bans.”

this House Would ban cars in private city centers.

- Gov Arg 1: “Cars cause pollution and worsen climate change.”
- Gov Arg 2: “Traffic congestion harms productivity and increases stress.”
- Gov Arg 3: “Public transport is more efficient and inclusive.”
